PARTNERS IN FINE DINING

Revolutionary **Neoflam** non-stick cookware is not only trendy – think vibrant green, orange and red, designer glass lids and stylish handles – but is also the safest way to prepare a meal. Neoflam's chief ingredient is Ecolon, a ceramic, natural non-stick coating that is twice as hard as old synthetic coatings. This can be heated to higher temperatures without the surface breaking down and releasing gases that are harmful to your health. The die-cast cookware will never warp or buckle. The cast aluminium base ensures even and effective heat transfer – so no more burnt outsides and raw insides! Neoflam cookware is perfect for gas, electric or ceramic stove tops and is available directly from Tevo – call them on 0861 77 88 88 or go to www.tevo.co.za – as well as at Pick n Pay, Makro, Game and Checkers.
